SUBJECT: Your only limits are the ones you set. Here's how to break them...

Hey [NAME],

Here's the deal.

I have both **bad news** and **good news**...

The good news?

You still have a chance to work on and help your athlete child improve their performance.

The bad news?

You need to act quickly to turn the situation around and witness your child realizing their grand dreams.

If you haven't already done so, check out the brand new Peak Performance Accelerator program.

Within the Peak Performance Accelerator, you'll discover:

1. How to effortlessly eliminate test and performance anxiety, once and for all
2. How any student athlete can develop a rock solid mind and a healthy body fast
3. The ways for your child athlete to excel under pressure and enjoy the wonderful thrill of winning in sports
4. And much more...

Imagine your child athlete, crossing that stunning finish line after a gruelling race.

Only to look at you with a sumptuous smile as they get the taste of gold for the first time in their athlete's life.

But in order to make that happen?

You need to get your hands on the only solution out there that is geared to optimize the mind, body and gut for optimal performance in as little as 30 days.

From this point forward, your child athlete cannot afford to go ahead directionless on their journey..

Thankfully, with the right strategies ([check out the PPA](#) to help you with that), you can get your child's performance up to where it belongs.

Questions about your specific situation?

Just reply to this email and share your thoughts, concerns, hopes and dreams with me.

Your friend,

Dr Klara

P.S. Why should you listen to me? Because over the past 20 years, I have helped thousands of student athletes **overcome and crush their performance anxiety** once and for all.

SUBJECT: Your success is predictable so long as you know what you want

Hey [NAME],

You want the absolute best for your child.

You want to share the success and results that come with your child athlete experiencing the savory taste of victory.

You want your child to experience unforgettable experiences.

You want to see your child feel at your best every single day - physically, mentally and emotionally.

You've seen other athletes win and crush their competition. Practicing for long hours day in and day out. Finishing what they start. Persevering. Succeeding.

But you're not sure how it's possible.

Becoming successful on the field is all about developing your mindset and confidence, then channelling that into meaningful action backed up by powerful performance.

This is why I created the Peak Performance Accelerator.

I've condensed everything I've learned over many years into a simple step-by-step program that includes everything you need to help your child peak perform and experience the life they desire.

You just need a spark to ignite that fire within you.

The fire to witness your child unlock their dreams at all costs.

The fire to know that you, as a parent, have given your child everything to see them succeed.

Plus, a little faith to take the leap.

And good ole' fashioned parental support to get you to the finish line.

The Peak Performance Accelerator is now OPEN... but only for the next few days!

Wouldn't it be amazing for your athlete child to feel...

- *Confident*: physically, mentally and emotionally
- *Calm* in their heart and mind because they know they're progressing?
- *Delighted* to experience more success on the field and in their life?
- *Reassured* with a greater sense of control over their life?
- *Adventurous* because they're going after it and creating the life they've always wanted to have?

All of this is totally possible for you!

It's time to stop wishing for a better life and start building it!

[\[REGISTER NOW\]](#)

I've poured everything I've learned over the years about developing confidence and succeeding.

The process you're about to discover in the Peak Performance Accelerator?

It's the exact process I've used to become a multi-championship winning athlete.

It's all within reach by following a set of simple, proven principles that have worked for many out there.

And they can work for you too.

In this program, you will find training videos that show you everything you need to help your child develop the ultimate performance on the field.

Everything is broken down so it's easy to follow.

Each step is results-oriented because your success is the **#1** reason I've created this program.

You see, as a multi-championship winning athlete - I've been through it all.

The Peak Performance Accelerator is the only program of its kind... which I am willing to put my personal reputation behind.

So, what are you waiting for to elevate your life?

I have seen so many people apply the principles within the Peak Performance Accelerator to completely transform their child's lives.

I want you to have the tools to make it happen.

But don't just take my word for it.

“When Klara is coaching me, I truly feel that I can let go and fully trust in her abilities and intuition. She is a caring, passionate practitioner and it is clear that she listens intently to what you are saying and therefore works immediately to help you find solutions to your problems. I find her confidence and her ability to be extraordinary in letting a client feel safe and secure. Knowing that your practitioner truly cares is vital which is why I love working with her.”

John Fiore

(Accredited Certified EFT Practitioner/ Holistic Coach/ Sports Energy Psychology Coach)

“I had worked with Dr. Klara before and I was always drawn to her positive energy towards everything. I was impressed by how insightful Dr. Klara was after sharing only a few details of my life. What she said in our sessions resonated very much with me, and I could see that she understood what my issues were and how to address them. Something I really enjoy about Dr. Klara's coaching is how she goes directly to the issue and catches all of us before we keep repeating the pattern, and she always does it in the most pleasant and fun way.”

Gabriella Hernandez Cunto

(Adjunct Professor)
